LOOP RESTAURANT OFFERS INSULT TO COLORED CITIZENS

The writer of this article was desirous of a cool drink on Monday of this week, entered a Harding restaurant, 131 N. Clark Street and was grossly insulted. He asked for a bottle of beer and the bartender was long about serving him and when he did, brought him a warm bottle, sat it before him with a vengeance, did not uncork it and walked away. The writer laid down a dollar bill and when the change was thrown in front of him, the writer asked if this was the kind of service the Harding people extended colored citizens.

The writer then told the bartender that his money was worth more to him than the slop he was serving him and called for the manager. As usual, the manager was out and the bartender said that they did not care for his trade. The writer then found that Mr. Harding who operates a chain of restaurants had his main office at 21 S. Wabash avenue.

Mr. Harding was immediately sought. The treatment was explained to and Mr. Harding flatly told the writer that: "We don't refuse to serve you people unless you insist, no matter what kind of treatment the bartender gives you; in fact we don't want your trade." He then asked "What are

PAVES WAY TO PAY SCHOOL TEACHERS

Passage by Congress of the authorization for Federal loans to provide cash for unpaid school teachers paves the way for Chicago teachers to be paid in full. Thru the efforts of Mayor Kelly, Chicago is ready to take full advantage of this act of Congress.

Action has already been taken to provide the Reconstruction Finance Corporation with additional security for Chicago's loan to pay teachers. This additional security is based on \$30,000,000 worth of school property not used for school purposes. Mayor Kelly conceived this idea and thru his relentless efforts has seen the plan mature to a place where pay is in sight for Chicago teachers.
